SANTIAGO FERNÁNDEZ

SOFTWARE DEVELOPER

ABOUT ME

I am a very creative person, who is always looking for ideas to make reality. I like to work in a team, since I have a good communication with colleagues. I am always looking for new things to learn and to add to the team I join.

WORK EXPERIENCE

MO & PC (Call Center)
Collection of overdue debts.
December (2023) - May (2024)

PROJECTS

Cabaña La Bartola

This is a site we developed (Techwaves Innovation) for a client, there you have animals and their information in case you want to have a new pet.

Aroma's

It is an administration app for an Uruguayan company. I joined the team as FullStack developer and I worked with Vue.js and Laravel.

June 2023 - October 2023

My portfolio

It is a site to show my projects, I created it based on things I like. To create it I used Reactjs.

EDUCATION

★ **2022 - 2023**
Software Developer

Holberton School Uruguay

In this institution I improved my teamwork and my problem solving, since you learn based on individual or group projects, and without teachers, this made learning more like a real job. This helped me to improve my soft skills, my creativity and communication.

★ **2017 - 2019**
Bachelor of Computer Science

UTU Las Piedras

In this high school I started to learn about the IT world, I got into Hardware, how to build PCs, how to discover and solve problems, etc. I also started to learn more about programming, programming structure, etc.
