MY EDUCATION

2022 - 2023
Software Developer
Holberton School Uruguay

2017 - 2019
Bachelor of Computer Science
UTU Las Piedras

LANGUAGES

Spanish (native language)

English (Intermediate)

ABOUT ME

Recently graduated as a software developer, looking forward to putting my skills into practice and acquire new ones in a first work experience.

I am a creative person with positive mindset, who likes to learn new technologies and enjoy working in a team.

PROJECTS

PetMate

Final project for Holberton School, it was a pet feeder, controlled by an application. I was in charge of the FrontEnd, for which HTML, CSS, Javascript, React and TypeScript were used.

GitHub: github.com/Holberton-PetMate

Aroma's

It is an administration app for an Uruguayan company. I joined the team as FullStack developer. I work with Vue and Laravel.

June 2023 - October 2023

My portfolio

It is a site to show my projects, I created it based on things I like. To create it I used Reactjs
